Will the Chinese Build the Victoria and Montreal Railway?

Within two years from next Thursday, the ground will be broken, and the Victoria and Montreal Railway will have been commenced. On the Atlantic side, cheap labor will doubtless be imported from Europe—from Great Britain—to do the ordinary laborer's work. At least that is the most reasonable presumption; for it cannot be supposed that either the Government of the Dominion or any great company that may construct the Eastern section of the railway, will import Chinese via the Central Pacific Railway, in preference to getting men from the United Kingdom who are "fresh of our flesh and bone of our bone." The railway will doubtless be viewed by the Dominion Government as a great means of rapidly settling the vast wastes between the Ottawa and the watershed of the Rocky Mountains, with a homogeneous people. The attempt, then, will, in all probability, be made to connect a grand emigration scheme, either directly or indirectly, with the construction of the transcontinental railway. The tide of emigration from the Old Country can flow into Canada at a cost of possibly twenty-five months' services of an adult male or female, and for the opportunity to his new home. With the opportunity for employment, and to select lands and rear comfortable homes, it is evident that vast immigration to the Eastern Provinces must take place during the construction of the railway. We cannot consequently realize such a thing as importing Asiatics to do work that should be done by England's own sons. The price of labor will doubtless enter into the calculation of expense, no matter whether the Government or a company construct the railway; and as both will have an interest in settling up and cultivating the waste lands, it does not seem probable that Chinese labor will ever be sent across the mountains to do the work of Anglo-Saxons. On the Pacific—our side—the matter is quite different. In the first place, we have no population to engage in the work of natives. All the inferior class of labor must be imported; and it must be either Chinese or Anglo-Saxon. Millions of Chinese front our shores. They can be landed here in thousands, as cheaply as the English, Irish, or Scotch can be landed in Canada. If employment be offered to them, they will be sure to come, and our whole country will swarm with the Mongolian race. They will, in that case, take the place of the very class that we require most—that is, men who are "bone of our bone, and flesh of our flesh"—men who worship at our altars, who speak our language, who support our schools, whose social wants and habits are our own, and who, when the pick and shovel are laid aside, would seize the plough, and turn our waste lands into fruitful fields, and raise up thrifty families, educated to discharge the highest duties of the state. The gain in such a case from the cheapness of Mongolian labor, would produce a great loss to the country. We would be left with an inferior and an alien population on our hands—a population that would grind down the price of white labor, and gradually produce such a state of the labor market as would compel white labor from our shores. Placing the matter, then, in this light—holding that the employment of Chinese labor in constructing our end of the railway—from Victoria to the eastern foot-hills of the Rocky Mountains—some seven hundred miles—holding that Chinese labor so employed would be a serious evil, we maintain that it is the manifest duty of our Government to make arrangements in time for a different class of labor—a better population. The Dominion and Provincial Governments possess separately and jointly the right to deal with emigration; and it should, consequently, be the duty of the new local Government to concert with the Dominion Government some practical immigration scheme by which a supply of British labor may be brought into the market in time to avoid, if possible, the necessity of employing Chinese in the construction of the railway.

Memory presides over the past. Tell a child over the present. The first lives in a rich temple hung with glorious trophies, and lined with tombs, but the child has but one shrine and that is every breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealer in British Columbia. Beware of spurious imitations.

IRISH RIFLE ASSOCIATION.

The Irish Rifle Association, the contests in connection with
 which now occupy an entire week of June in
 each year, commenced its proceedings on the
 6th at Do'Y's brand, in the imme-
 diate neighborhood of Dublin. The match
 of greatest interest decided that day was one
 between an Irish Eight and an English Eight
 the latter team having come over on the in-
 vitation of His Excellency the Lord Lieutenant.
 The conditions of the contest were 15
 shots each at 900 yards, and the same num-
 ber at 1,000 yards, with liberty to select any
 rifle, the same rifle, however, to be used in
 the close. The Irish Eight consisted of J.
 Rigby, E. S. Greenhill, A. Lloyd, Lord Con-
 curry, Major Leech, Mr. Vignolles, Mr. Pol-
 lock and Mr. Doolin. The English Eight
 were Mr. E. Ross, Mr. Malcolm, Mr. Eden,
 Mr. Martin Smith, Mr. Pleyter, Mr. Evans, Mr.
 Huddell and Mr. Wells, M.P. The aggregate
 score of the Irish Eight was 331 at 900
 yards and 290 at 1,000 yards; that of the
 English Eight was 296 at 900 yards, and 290
 at 1,000 yards. The Irishmen thus won by
 35 points. At the close of the match Mr.
 Wells said his team had been beaten, but he
 had much pleasure in acknowledging the su-
 periority of the Irish team. Several other
 matches of less general interest were shot off
 during the day.

BULLION AND SILVER.

The imports of gold and silver into England during the month of April
 amounted to £1,415,433, and of silver to
 £1,230,422 sterling, both representing an in-
 crease of nearly cent. per cent. as compared
 with the corresponding month last year. The
 total gold and silver imports shows that
 £219,057 came from Germany; £206,320
 from Belgium; £241,400 from China, includ-
 ing Hongkong; £437,285 from Australia;
 £308,496 from Mexico; and £886,276 from
 the United States. All these show a large
 comparative increase, except Australia. The
 exports of bullion and specie also indicate a
 large comparative increase. Germany re-
 ceived in gold and silver, £490,810; Holland,
 £101,028; Belgium, £3,050; France, £24,292;
 Portugal, Azores, and Madeira, £7,000; Spain
 and Canaries, £101,000; Turkey, £250;
 Egypt, £237,130; West Coast of Africa,
 £7,471; British possessions in South Africa,
 £12,500; Mexico, South America (except
 Brazil), and West Indies, £115,010; Brazil,
 £1,298; and other countries, £82,846. There
 were no exports during the month of May to
 Russia, Gibraltar, Malta, China, Australia,
 British North America, or the United States.

ARRIVAL OF THE DOUGLAS.

The Douglas, Capt. Clarke, arrived from Comox, Nanaimo,
 and Cowichan yesterday afternoon, with
 twelve passengers and some farm produce. At
 Comox, Mr. Austin, of the Lands and
 Works, who went up by the steamer, paid
 the road workmen to date. The remains of
 Mr. Titus were interred on Sunday; burial
 service was conducted at the church by the
 schoolmaster of the district. At Nanaimo,
 the Zephyr had commenced to load with
 stone at the Newcastle quarry. The Prince
 Alfred was nearly laden with coal, and was
 to have left last evening for Victoria to ar-
 rive this morning. Mr. Mohun, C. E., and
 Mr. Giffin arrived from the Baynes Sound
 mine, where a survey of the company's claim
 has been made.

THE HORSE PLAGUE.

Telegraphic advices of the 8th inst. state that the horse disease is
 spreading at an alarming rate in New
 York. A number of blood horses are said to
 have been seized with the disease—those of
 Bonner, Vanderbilt, Wilkes, Belmont, Fisk
 and Stewart among the rest. It is reported
 that during the week thirty or forty horses,
 valued at from \$5,000 to \$10,000 each, have
 died of the plague, and all horse owners are
 greatly alarmed for the safety of their prop-
 erty. At present at least two thousand ani-
 mals are suffering from the contagion, which
 baffles all the skill of veterinary surgeons.

THE RIOT IN THE EAST.

A dispatch dated Trenton, New Jersey, 11th inst., says, Gov-
 ernor Randolph issued a proclamation announ-
 cing the rights and privileges of the people
 to assemble together, and warning all per-
 sons from other States, who interrupted the
 peaceful assembling of the inhabitants of the
 State, that they would be treated as disturbers
 of the peace and order of the Commonwealth
 would be vigorously and zealously punished by
 the authorities.

INSTALLATION.

The following officers elec-
 ted were installed last evening in Columbia
 Lodge No. 2, I. O. O. F., for the ensuing
 term by D. D. G. M., J. P. Davies, assisted
 by P. G. Hayward, P. G. Mitchell, and P. G.
 Yiglesias: Edward H. Marvin, N. G.; Rowland
 W. Fawcett, V. G.; William Harrison, R. S.;
 L. M. Hughes, P. S.; J. F. Felt, Treasurer. Ap-
 pointed officers—A. Foster, Conductor; J.
 Vaughan, Warden; W. J. Jeffers, R. S. N. G.;
 R. Hicks, I. G.; P. J. Hall, O. G.

COST OF THE VOLUNTEER FORCE.

A Parliamentary return issued on Tuesday shows that
 the total sum expended upon the Volunteer
 forces in England, Scotland, and Wales from
 April 1, 1870, to March 31, 1871, was £241,
 £50 6s. 8d. Of this the estimated cost of pay
 of adjutants and regimental instructors was
 £156,136; the actual charge for capitation
 grant, £226,527 11s. 4d.; and the value of
 arms, ammunition, &c., issued to the Volun-
 teers, £428,989 15s. 4d.

FROM THE SOUND.

The North Pacific reached her wharf from Port Townsend last
 evening, bringing about 40 passengers and a
 small Sound mail. Mr. Rothschild of Port
 Townsend, and Mr. Lamb of the Telegraph
 Company, came over in her—the latter from the
 Columbia river. She will leave this
 morning, at 10 o'clock.

FOR THE SKEENA.

The Otter sailed for the Skeena shortly after three o'clock this morn-
 ing, with fifteen passengers and a large
 freight for the mines. The steamer will also
 touch at intermediate ports, and call at
 Skeena, where the Company will establish
 a trading post.

A GOOD TANNER CAN GET CONSTANT EMPLOYMENT

by applying to Dalby & Wilson, Govern-
 ment street.

LEATHER GUNS.

The Cuban rebels are said to have resorted to the use of leather guns, a
 species of artillery used by Gustavus Adol-
 phus and other European commanders in
 the 17th and 18th centuries. The leather while
 wet is tightly stretched round a wooden core
 or mould, in successive jackets, the under
 one being allowed to dry before the next is
 put on. A close and tight coil of good rope
 or cord completes the tube, the breach being
 made of hard wood lined with tin. Such
 guns will fire some 20 rounds before giving
 way. The advantages they present are
 cheapness and ease of construction, and
 portability, as a couple of them, with a four-
 inch bore, can be carried by one man. They
 are usually fired from the ground or from a
 cart.

FOR NEW WESTMINSTER.

The Enterprise, Capt. Swanson, left yesterday morning at 7
 o'clock, for New Westminster, with about
 forty passengers and the largest freight of the
 season. She will leave for New Westminster
 this Sunday morning, at 10 o'clock, for the
 return from Yale via the mails and Express.
 Among the passengers were Mr. J. H. Turner
 and Mrs. Turner, Miss Pemberton, Rev. Mr.
 Russ, Mr. Picht and Mr. P. Clarke. There
 were also a number of sheep, goats, cattle
 for the lower Fraser farmers, on board.

THE SURVEY PARTY.

A number of men were engaged yesterday to act as chainmen,
 ridmen, cooks and axmen, respectively, for
 the Canadian Pacific Railway Survey. The
 list is not yet complete, and when ready we
 shall be able to lay the names before the pub-
 lic. Transient and ridmen received \$300
 the general parties will be in readiness to
 start for the Mainland on Thursday next.

THE FRENCH HOSPITAL.

The Visiting Com-
 mittee made an inspection of this institution
 yesterday, and found the establishment
 clean, cheerful, and in order. There are
 four patients within its walls, who seem to
 be convalescing, and the town messenger,
 has nearly recovered.

THE SURVEY.

It is said a coast survey will
 at once be instituted, and that for this part
 of the work Mr. John Trutch has been sent
 for. An arrangement will probably be ar-
 rived at to-day, between the heads of the
 survey staff and port local engineers.

AUCTION TO-DAY.

Plummer & Pagden, to-
 day, at 11 o'clock, will offer sundry balances
 to close consignments, comprising woollen
 cloths, clothing, shirts, hose, sheeting, boots
 and shoes, hats and caps, umbrellas, &c.,—
 trade credit sale.

 with the old schooner industry in tow, to en-
 gage in the whaling business for the season.
 Both vessels have been fitted and manned for
 the service.

LAST NIGHT'S DESPATCHES.

WEST INDIES.

KINGSTON, Jamaica, July 12.—The Porto
 Rico and Jamaica cable, which was recently
 recovered, has been lost again. The steamer
 Suffolk has abandoned the attempt to re-
 cover the broken line. The Haytian govern-
 ment cable to Jamaica will be laid at once. The
 Government has paid the amount agreed upon.

EASTERN STATES.

New York, July 12.—About half-past two,
 the Orangemen for the 9th and 10th regiments,
 under Col. Porter, marched past and
 formed line on 8th Avenue, where they
 were met by the 6th regiment, and the 6th
 regiment took up a position to the north of
 23d street. The Orangemen were on the side
 and the military on the west, the apparent
 intention being to have the Orangemen march
 between two fires. They presented a small
 appearance; they numbered about 200 (?),
 and had two banners, one Stars and Stripes,
 and another bearing a picture of
 William of Orange on horseback, and a small
 one with the inscription, "American freedom,
 fall in." The police on the other side of the
 street, made a rush on the mob. It was
 feared that a general riot would take place,
 but it was quelled, and at three o'clock signs
 for starting were given. The procession
 started and twice was attacked by rioters,
 who were quickly put to flight by the police.
 A large number of rioters were clubbed and
 taken prisoners. At 2 o'clock, the 6th
 regiment charged the mob with fixed bayo-
 nets. Several persons were killed and in-
 jured, among them one woman. Col. James
 Fisk was at the head of his regiment, and
 had an ankle broken with a club, early in the
 affray.

NEW YORK, JULY 12.—THE GOVERNOR LEARNING

it was the intention of the Jersey City Orangemen
 to parade here, ordered the boats from
 that city to be stopped, and no men allowed
 to come here, as he did not intend to protect
 the citizens of another State. The police,
 backed by the 8th regiment, made a raid on
 the Hibernian Hall; the mob ran like sheep.
 A large number were arrested and locked up.
